Furthermore the difference between the total capital project costs and the total appropriations to date shall be applied utilizing additional funding from the Army Water Line Reserve, and is funded in a manner acceptable to Fort Drum Garrison and the Authority Comptroller.

J. Wright further commented that the reason for this resolution is the bids are not due until tomorrow. If this is not approved today, this resolution would be pushed to the May Board meeting. There is no final number to submit. This resolution would take the price of the bid and add that to it to arrive at a reasonable contingency for the project. The difference will be applied, utilizing funds from the Army Water Line Reserve. There are reserve funds for both the water line and sewer line. The Authority has spoken with the
Army, and they have approved this. This total may be as much as $600,000, although it is hoped to be less. The reserve fund can handle it.
